HOLIDAY FOOD & BEER PAIRINGS

In the spirit of Christmas, here's a quick guide to pairing some of our favorite holiday foods with beer. Don't go looking just yet, but you might find a couple of these beer styles in the box!

Baked Brie - This warm, gooey Christmas party favorite is one of the few foods that can handle a Belgian Strong Ale. In turn, it will cut through the fat, cleansing your palette for the next bite!

Oysters - Next time you're at an oyster roast, choose a Stout with a bit more sweetness than is typical of the style. That maltiness will balance out the oysters' saltiness in a mind-blowing way.

Turkey & Stuffing - It's hard to pair an entire meal with a single style of beer, but you can confidently enjoy herb-heavy dishes with something a bit funky, like a Saison.

Gingerbread - Pair this spicy dessert with a malty Munich Dunkel. Dunkels have enough heft to handle gingerbread's spice and enough sweetness to carry a dessert course.

Eggnog - This is more of a mixing than a pairing, but it's a good one! Choose a strong, spiced Christmas Ale or rich Stout and mix equal parts beer and eggnog to craft a delicious holiday beernog.
